AUDIENCE FOR THIS PIECE: SENIORS

KNOW SOMEONE NEEDING A FREE RIDE TO GET THEIR VACCINE?

Through their new program, **mission::vaccinate**, Community Partners in Caring is providing **free** rides to help those aged 62+ get to their vaccination appointments. People must be able to walk without the assistance of their driver (canes and walkers will be placed in the vehicle during the ride).

Those 18+ years old and considered “at risk” (if mobility is restricted by chronic illness or disability and they lack access to transportation or are unable to drive) may also be eligible for free rides.

After registering for a vaccine appointment, someone needing a ride should call Community Partners in Caring at 805-925-8000 to arrange the free ride. Two-day advance notice is required.

Details: www.partnersincaring.org/missionvaccinate
